# What Now, What Next, Where To

## Elvis Presley

Like a ship without a compass, on a cold lonely sea
No beacon light of love to guide me through
I lost the only treasure that means anything to me
What now, what next, where toI thought I had a love that would be mine eternally
I felt so sure you'd be forever true
Now everything I counted on has crumbled under me
What now, what next, where toYou were part of every dream I dreamed, of everything I planned
How could I know our castles were built upon the sand
Won't heaven send an angel please to tell me what to do
What now, what next, where to
What now, what next, where to
