

I Will Always Be Your Fool

Neurosonic

I believe every word you've ever spoken
Lie to me with every promise you have broken
Just know that I will always be...I will always be, always be your fool
I have always been, always been your fool
I will always be, I will always be your fool...
Your fool.I have wept with every bruise you ever gave me
but I have kept the hope that one day you will save me
Just know that I will always be...I will always be, always be your fool
I have always been, always been your fool
I will always be, I will always be your fool...
your fool.
