

# Stop Before You Say It

## Heavenly

People think Marianne is crazy  
Wanders round with her eyes all hazy  
She's my kind of girl  
I wish she wouldn't sigh  
Saw her stealing a bunch of flowers  
To give to me, I swooned for hours  
She's my kind of girl  
I wish she wouldn't cry Where does she go and what does she see out there?  
Where does she go and what does she see?  
Does she see I care? Stop before you say it  
Stop before you say it  
Stop before you say it  
Take me I'm lost  
Take me I'm lost  
Take me I'm lost  
Without you She was bright and she was headstrong  
Said she'd write the perfect popsong  
She's my kind of girl  
I wish she wouldn't stray  
Arianne says she has to wander  
Says it serves to make her fonder  
She's my kind of girl  
Oh I wish she'd go away Where does she go and what does she see out there?  
Where does she go and what does she see?  
Does she see I care? Stop before you say it  
Stop before you say it  
Stop before you say it  
Take me I'm lost  
Take me I'm lost  
Take me I'm lost  
Without you Where does she go and what does she see out there?  
Where does she go and what does she see?  
Does she see I care? Stop before you say it  
Stop before you say it  
Stop before you say it  
Take me I'm lost  
Take me I'm lost  
Take me I'm lost  
Without you When you see her, I don't want to be there, when you wake that girl

When you see her, I don't want to be there, when you wake that girl
