Great White Buffalo

Undercode

Alright, well, listen everybody
To what I got to say
There's hope for tomorrow
If we wake up today
Well, it happened long ago
In the new magic land
The Indians and the buffalo
They existed hand in hand
Well, the Indians needed food
And skins for a roof
Well they took what they needed
Millions of buffalo were the proof
I said, "Hey"
But then came the white man
With his thick and empty head
He couldn't see past billfold
He wanted all the buffalo dead
So the Indians hit in field
There were no buffalo to be found
The magic seemed to be missing
It kind of looked like a buried ground

But above the canyon wall
Strong eyes did glow
Leader of the land
The Great White Buffalo
The Great White Buffalo
The Great White Buffalo
Well, he got the battered herd
And he led 'em cross some land
With the Great White Buffalo
They could make a final stand, yeah
Hey, well, listen everybody
To what I got to say
There's hope for tomorrow
If we wake up today
There's hope for tomorrow
If we wake up today
That Great White Buffalo

That Great White Buffalo
That Great White Buffalo
Yeah, yeah
