

You Went Away

Rare Bird

You went away
'Cause you said that you can't stand me
So I went away
I was sure that you can't stand meWell, I don't think we have to be like this forever
Is there more to life than love and being togetherYou went away
'Cause you said you couldn't love me
I went away
'Cause all I do is love youWell, I don't think we have to be like this forever
There's more to life than love and being togetherMy loud guitar comes in
My thumpin' drums come through
When my loud guitar comes in
My thumpin' drums come through
My loud guitar comes in
My thumpin' drums come throughWell, I don't think we have to be like this forever
There's more to life than love and being togetherThere's more to life than love and being together
Is there more to life than love and being together
I went away
