

Big Fat Zero

Graham Parker

Better listen to me, you better stay blind
And you better not see
You think it feels alright
But you dont have to lie awake all night Fumble with the money and fumble with the keys
Somebody has to end up on his knees
Go to a funeral dressed in pink
Stop to love and not stop to think Big fat zero
Big fat zero
Big fat zero They all lose their cool
They all see the money and they start to drool
They all shuffle their feet
They shuffle their cards and they turn up the heat they tell you Fumble with the money and fumble with the keys
Somebody has to end up on his knees
Go to a funeral dressed in pink
Stop to love and not stop to think Big fat zero
Big fat zero
Big fat zero
Big fat zero
Big fat zero
