Disaster Fiend

New Bitter Pop Stars

Hey you
Making the scene
Plotting the scheme
You know what's happening

Hey you
Lighting the fuse
Tightening the screws
With so much left to lose

Hey you
Devil may care
Passion with flair
Lonely without despair

And you
You're kerosene
You're gasoline
You're a disaster fiend
Yeah you
You oh oh

Hey you
Dropping the clues
You're front page news
No one left to accuse

And you
Plotting a spree
Old recipe
Taste for catastrophe
Yeah you

Doesn't seem so ordinary
To a simple tool like me
But if you're coming looking for your prince then maybe
Admits of chaos you've made
Got off unscaved
Ready to misbehave

And you
You're kerosene
You're gasoline
You're a disaster fiend
Yeah you
You oh oh

Doesn't seem so ordinary
To a simple tool like me
But if you're coming looking for your prince then maybe
In the right place
You'd be in the right place

Hey you
Making the scene
Plotting the scheme
You know what's happening

And you
You're kerosene
You're gasoline
You're a disaster fiend
Yeah you

You've come here for your prince
You've found the right place

You've come here for your prince
You've found the right place

You've come here for your prince
You've found the right place

You've come here for your prince
You've found the right place
