

Death Penalty

Lord of the Lost

I break the hearts of those
That live lives drenched in alibis
A lethal overdose
Way too late to moralise You'll be my sacrifice
So shed your skins for me tonight
This devil's undisguised
We'll kill the pain, drink, fuck and fight Swing your hips in carnal lust
My hateful heart craves energy
Kiss my lips and scream for more
On your bended knees
Scream for more
Scream for me
I'll be your death penalty
Swing your hips in carnal lust
My hateful heart craves energy
Kiss my lips and scream for more
I'll be your death penalty I'll break your heart of gold
I'm sharper than a guillotine
Deception takes its toll
Your final meal is here with me You'll be my sacrifice
So shed your skins for me tonight
This devil's undisguised
We'll kill the pain, drink, fuck and fight Swing your hips in carnal lust
My hateful heart craves energy
Kiss my lips and scream for more
On your bended knees
Scream for more
Scream for me
I'll be your death penalty
I don't know what's wrong in your head
I don't know why people wish me better off dead
All I want is to save mankind
From the ones not willing to cherish life
I don't know what's wrong in your head
I don't know why people wish me better off dead
All I want is to save mankind
From the ones not willing to cherish life You'll be my sacrifice
So shed your skins for me tonight
This devil's undisguised

We'll kill the pain, drink, fuck and fight Swing your hips in carnal lust

My hateful heart craves energy

Kiss my lips and scream for more

On your bended knees

Scream for more

Scream for me

I'll be your death penalty Swing your hips in carnal lust

My hateful heart craves energy

Kiss my lips and scream for more

I'll be your death penalty I'll be your death penalty

I'll be your death penalty
