

# A Discourse On Killing

[Rocky Votolato](#)

All of the healing will take some time  
We both have had psychotic men in our lives  
And I know that you're right  
Deal with it, forget sometimes I can't So I wanna hit somebody with a baseball bat  
Break his fucking knees and take pleasure in it  
And I know it's not right would only hurt you and I  
I'll pass the hours thinking about killing you both When deep inside I know that I ought to be grateful  
For your evil example you taught me all I need to know  
About what I hate most
