

Dangerous Man (Remastered Version)

Dwight Yoakam

He's a dangerous man
He's got blood in his plans
Better watch out where you stand
'Cause he's a dangerous man
He'll make you believe that he's your friend
But don't forget it's just pretend
And he's a dangerous man But he'll tell you the right things
About all the wrong people
He'll smile then he'll say, "Hey, you and me
We think just the same"
You better make sure that you read
All the rules first
'Cause he runs a crooked game And he's a dangerous man
And he's got blood in his plans
Better watch out where you stand
'Cause he's a dangerous man
He'll make you believe that he's your friend
But don't forget it's just pretend
And he's a dangerous man Yeah, his words are all vain
And his promise is empty
His message is loud
But it ain't meant to be clear
He hides all the clues
That have left his hands stained and dirty
And he'll wash them with your tears
