Hey Sister

Adickdid

Hey sister where you been?
I'm alone and out here it's dangerous
Tell my friends I'm coming home
It's a bust and they drove me crazyDon't care what they say
I'm stranger now
Brought down this whole town
And I'm stranger nowHey brother who you with
Make her dance hot girls, will tame you
Hold your breath let it out how you feel
The hit's gonna change youDon't care if they stay
I'm stranger now
Brought down this whole town
And I'm stranger nowLate fall afternoon
I paid for a room
I saw her and froze
Her name's Apple Rose
Rose brought me to bleed
I couldn't believe
Dazzling scenes
Passed out in dreams
And now I'm strangerHey lover check it out, well I'm a freak
With tripped out behavior, yeah
Now you know how I been and it's great
'Cause I've gone insane hereDon't care what they say
I'm a stranger now
Brought down this whole town
And I'm stranger now
