(IQ)

(IQ)

I don't know what they thinking, they must've been drinkin.

(Rakim)

But what?

(IQ)

I'm that king pin

(Rakim)

He said slow papers, you're out oh.

It's like spittin', heresy is all about flow

Like he can't eat his cake and he starve when the count low

He call the lab the bakery, he all about dough

Stuffin' bread, his pockets is hungry

You talkin' nonsense, unless the topic is money

He call a hundred dollars a hunny, mommy's he call 'em dimes

So his mind's on his money, but mommy's is on his mind

Like a o.g. focused on the come-up,

Think he f-in around? He approachin' with the gun-up (bam)

Roll a blunt up and forget it happened

Stash the dollars, bag the product and get it crackin'

He get pies, he flippin' 'em tricks, he trickin' 'em

He call 'em heifers, he hugh heffin' 'em, he pimpin' 'em (where my money)

Fonzie, getting them ones for the connect

So have them ones correct when he come and collect (here he come)

Hook (IQ)

(Rakim)

That sound like blood money  
And I ain't just talking double dubs and club money  
I'm talking drug money, move out the hood money  
Double up money, you could catch a slug money  
This kid'll murder you, more than the business  
If you livin' for revenue its principal never personal  
Get rid of you if you blockin' the bigger picture  
He on the block thinkin' a gwop is gettin' richer (get them ones)  
He flipped some urban blue, played with them keys  
For them c-notes, so he can handle the whole piano  
Hammers unloadin' ammo, if his army ain't in harmony  
He kill his own fam-o, like tony soprano  
He's tryin' to take it from minor to major and grind for the caper  
His mind is made up, he'll die for the paper  
Crime is second nature when you love cash  
Do 'em dirty, he turned the ave into a blood bath (here he come)

hook (IQ)

(Rakim)

The heater bustin' mean the reaper comin'  
Drug money keep him buggin' out the trees he puffin'  
Streets is buzzin' bout the repercussion  
But he so much in love with his bread, the beef is nothin' (ain't nothin' man)  
He got medals for war, just like a veteran  
But now he bringin' cheddar in, more than he ever been,  
banked up, he stepped his hustle - pimp, smoke, coke, crack  
Heroin game up, American gangsta (uh huh)  
Sleep with the fish while he ran the loot and  
You like ballin'? He like stealin' and shootin'  
Comrades, customers, competition connect (don't matter)  
Some hustlers is wishin' and plottin' the day of his death (bring it on man)  
What's his focus? Keys is.  
Even with karma catchin' up, it's hard to set him up, he always holdin' heaters (whoa)  
But yo, they know his weakness, so they gave that bread to him  
Somebody put a gun to his head, guess what he said to 'em?
