

What's It Gonna Be

Mr. Big

What's it gonna be, baby?
Shivers down my spine
Swim on to your island
Is your treasure mine? Send me out an answer
Tell me something real What's it gonna be, baby? What's it gonna be?
Why is it have to be so hard to win your sympathy?
What's it gonna be, baby? What's it gonna be?
You're takin' your time, makin' up your mind
You should be makin' time with me, yeah How's it gonna feel, babe?
Your back's against the wall
Close your eyes and feel your
Body starts to fall
Gimme little answer, woh What's it gonna be, baby? What's it gonna be?
What's it gonna take to see the possibilities?
What's it gonna be, baby? What's it gonna be?
You're takin' your time, makin' up your mind
You should be makin' time with me, yeah Send me out an answer
Tell me how you feel
Move a little closer
Gimme something real Put you in my pocket
Keep you for a day
Let the good doctor
Take you away What's it gonna be, baby? What's it gonna be?
Why's it have to be so hard to win your sympathy? What's it gonna be, baby? What's it gonna be?
You're takin' your time, makin' up your mind
You should be makin' time with me Come on baby, yeah
