

Helpless

The Mist of Avalon

Helpless little friend,
You cry like it all will end.
This another world you see,
Listen to me.Come in to this song,
Where the sun like makes you warm,
This is all the refugees,
No need to weep.A kiss and good-night,
And you walk right over
With the mission from the sand
We get what we all want.Gently takes her under his wings,
Showing her what can be.
Still can be my little friend,
Just believe.You want it, I say
I'd better
You want it. Make me your God.I'm in your choises in the masterplan,
Wo-oh, this ache I had again
Show me the way from this misterious voices,
Some kind of sign.
Maybe some day I don't need no shelter,
Maybe this is that day.
Just promise me
A new beginning
And I will walk with you.I can see mistly
That she walks away
From this is it was.
She will not stay.And I will never be
Like the poison in my veins -
Beautifull, unbearable,
Like a black hole it fills my mind.
