

Benediction

Hot Natured

Yeahhh

Feel it coming on
I waited for so long
Feel it come my way
Each and every day

By the time i put on my shoes
I already have the moves
Benediction in the morning time
Everybody riding on and on
Keep on riding on and on
Keep on riding on and on
Keep on riding on and on
Keep on riding on

Feel it coming on
I've waited for so long
Feel it come my way
Each and every day

[illegible]

I feel like my love has found a home
In this space i no that i belong
I feel like my love has found a home

Benediction in my mind benediction in my heart and soul

Benediction in my mind benediction in my heart and soul

I feel like my love has found a home
In this space i no that i belong
I feel like my love has found a home

Benediction in my mind benediction in my heart and soul

I feel like my love has found a home
In this space i know that i belong
I feel like my love has found a home

Benediction in my mind benediction in my heart and soul
Benediction in my mind benediction in my heart and soul

Yeahh
