

# Lucky Day

[Matt Goss](#)

Never know just when life changes suddenly  
Even when you're down  
You can start again looking out honestly  
You can turn it around  
I saw your face and the sky opened up  
You smiled at me You could be the one to bring back the sun  
You could be the one who makes me feel whole again  
Somewhere in my life I lost my way  
Some might say this could be my lucky day  
It could be lucky day The empty glass of wine  
Thinking about lonely time  
Ain't not here any more  
You really find who I am  
Understand what I've been thru before  
I saw in you something beautiful and pure  
And you kissed me You could be the one to bring back the sun  
You could be the one who makes me feel whole again  
Somewhere in my life I lost my way  
Some might say this could be my lucky day  
It could be, I can feel, no it's real
