# Get My Math

## Agnes

Step in the club with my girls like what
Lookin' so tight and you know what's up
I meet your eyes and yours meet mine
Thinking this might be your time
Ecstatic, dramatic
I need you like an addict
Come on and jump on
And make sure that your game is tight
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
You're doing what a real man should
The way you move it feels so good
Attraction boy it's plain to see
Come on baby rock with me oh yea
Ecstatic, dramatic
I need you like an addict
Come on and jump on
And make sure that your game is tight
Work it, try a little harder

Spit it, if you wanna roll babe
Twirk it, you might get my math from me
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
If you wanna step to me
If you wanna get next to me
If you wanna step to me
Make sure that your game is tight
Ecstatic, dramatic
I need you like an addict
Come on and jump on
And make sure that your game us tight
Work it, try a little harder
Spit it, if you wanna roll babe

Twirk it, you might get my math from me
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
Work it, try a little harder
Spit it, if you wanna roll babe
Twirk it, you might get my math from me
