Wait

Patrick James

Down with a fall but in with the morning light
Weary souls in a fire it will all lie down
But won't you wait for me too, if I wait for you

Over hills and through the flooding lakes
Shout with the nature's arms it will give you grace
But won't you wait for me too, if I wait for you

You and I we trust
To say I'm sorry for the light I lost
Pay with nothing but the time
Trust, wait a minute there's hope

Started out to see
What's running back to me
Through the flying leaves

Fall from the rain
Tired from the grace
With you standing there
