

# Working

## Dropkick Murphys

I been working all day for me mate on the site  
Running around like a blue arsed fly  
I been working  
And I been working all day for me mate Every bleeding minute I been on the go  
Up and down the ladder like a fiddler's elbow  
I been working  
I been working all day for me mate [Chorus]  
Wait for tomorrow at half past ten  
When I sign on, but until then  
I'll be working  
I'll be working all day for me mate Aint' got no cards, don't pay no tax  
For a score in me hand I'll be breaking me back  
I been working  
And I been working all day for me mate  
Call me a crook, call me bent  
But I need more than food and rent  
I been working  
And I been working all day for me mate [Chorus] They try to follow me every day  
I give 'em the slip and I'm on my way  
None of the other blokes thinks it's wrong  
'Coz every one of 'em's signing on [Chorus] They try to follow me every day  
I give 'em the slip and I'm on my way  
None of the other blokes thinks it's wrong  
'Coz every one of 'em's signing on [Chorus] The benefit boys are out of touch  
What they don't know won't hurt 'em much  
I been working  
And I been working all day for me mate If I'm caught I'll go down for a month or three  
But they'll still Be paying out looking after me  
I been working  
And I been working all day for me mate [Chorus]
