Helpless

Face to Face

Another time, time after time
You make me feel so helpless
I, I never tried to change your mind
I keep it to myself, it's sometimesI've got to tell you, is it this time?
I'll tell you we've got to go to places
Somewhere I don't mind, it's specialAnd now you find as time goes by
You're left with nothing
Meaning much the meaning I will have to try
To take your mind to placesI wish that I could help you
But you seem less than helpless
I always tried to tell you someday
That it'd seem so special time after timeWhat's on your mind?
You make me feel so helpless
I, you never tried, what's on your mind?
You make me feel so helplessI, I feel so helpless, I
You're left alone with something
And I hope for you, it's one thing
That something you and yours can hold
And hold as something specialAnd now you find as time goes by
You're left with nothing
Meaning much the meaning I will have to try
What's on your mind? So helpless
I, I feel so helpless, I
