

# Helpless

## Face to Face

Another time, time after time  
You make me feel so helpless  
I, I never tried to change your mind  
I keep it to myself, it's sometimes I've got to tell you, is it this time?  
I'll tell you we've got to go to places  
Somewhere I don't mind, it's special And now you find as time goes by  
You're left with nothing  
Meaning much the meaning I will have to try  
To take your mind to places I wish that I could help you  
But you seem less than helpless  
I always tried to tell you someday  
That it'd seem so special time after time What's on your mind?  
You make me feel so helpless  
I, you never tried, what's on your mind?  
You make me feel so helpless I, I feel so helpless, I  
You're left alone with something  
And I hope for you, it's one thing  
That something you and yours can hold  
And hold as something special And now you find as time goes by  
You're left with nothing  
Meaning much the meaning I will have to try  
What's on your mind? So helpless  
I, I feel so helpless, I
