

# Show Me Something New

## Shout Out Louds

You and I  
Have a hard thing to describe  
You have so much to live for  
While I am just dying to stay alive  
You and I  
Have something you shouldn't try  
You have an eye for fashion, darlin'  
I'm sitting in my room and let the disc go by  
So much to live for  
Radio daylight, radio dark  
Radio daylight, radio dark  
Show me something new  
Show me something new  
Show me something new  
Show me something new  
You say things  
I've only read in books  
I been stuck here for ages  
While you get younger and younger  
So much to live for  
Radio daylight, radio dark  
Radio daylight, radio dark  
Show me something new  
Show me something new  
Show me something new  
Show me something new  
Radio daylight, radio dark  
Radio darkness and radio silent  
Show me something new  
Show me something new  
Show me something new  
Show me something new  
So much to live for  
Radio daylight, radio dark  
Radio daylight, radio dark  
Show me something new  
Show me something new  
Show me something new  
Show me something new

Show me something new  
Show me something new  
Show me something new
