

Lost You

Zeds Dead (feat. Twin Shadow & D'Angelo Lacy)

You've found out what it is
What's without a cause
Thrown upon losses
I find it hard to achieve what comes so easy
Thrown upon roses
The darkness we feels spawns human hearts
Retreat from denial of my own
And the thoughts have been caged deep within my self
What if I lost
What if I lost you
What if I lost
What if I lost you
You found out all 27 out on the east end
Brought upon closeness
Well many times we walked upon the fine line
But have me crossed it
Don't walk out that door all torn apart
Don't try and the best
Outside my own
And the thoughts have been caged deep within my self
What if I lost
What if I lost you
What if I lost

What if I lost you
Yeah
Dive down into the ocean
We walk
We both find it conclusive
Yeah, playing our parts
Our parts
The darkness we feels spawns human hearts
Retreat from denial of my own
And the thoughts have been caged deep within my self
What if I lost
What if I lost you
What if I lost
What if I lost you
What if I lost

What if I lost you
What if I lost
What if I lost you
Yeah
