All Comes Out In The Wash

Thornley

I never'd have guessed you and I would be friends
I'll never say never again
I've spent hours on the phone and all the rest
I guess I bleed the best
And every night it's plain to see
It wasn't meant to be
After all is said and done
It's over after all
You barely cried as you waved goodbye
It all comes out in the wash
Who would've guessed it would wind up like this
It's better than never again
I've spent hours in the rain and dried out somehow
I'd rather plead the fifth
And every time the morning comes
I wonder what I've done
After all is said and done
It's over after all
You barely cried as you waved goodbye
It all comes out in the wash
Empty cars and phone booth scars
Knuckles on the mend
Every time I go too far I'd rather wind up
Rather wind up dead
I should've guessed it would end up like this
I'll never say never again
After all is said and done
It's over after all
You barely cried as you waved goodbye
It all comes out in the wash
After all is said and done
It's over after all
You barely cried as you waved goodbye
It all comes out in the wash
It all comes out in the wash
It all comes out in the wash
It all comes out in the wash
