

I Will Love You (Acoustic)

[David Myles](#)

In the dark or in the light
In the morning or in the night
I will love you, I will love you, I will love you When we're close, when we're far
Over the mountains, under the stars
I will love you, I will love you, I will love you You will never be alone
You will never be alone When we're giving up, when we've got it all
When the flowers are blooming, when the leaves fall
I will love you, I will love you
