Brody's

Steve Lukather

Tryin' to reinvent myself in a fucked up world
Watching CNN doing 12 once curls
I said yeah
The antichrist is screaming from the wide screen
He's living in a mansion near the hollywood signAnother right wing cat getting busted for blow
He's cheating on his lady with Tiger Woods' ho
I said yeah
He's lying to the people with a straight face
Tripping up the truth every step he takeschorusWhat about the age of peace and love we tried
Text me with the reason why it had to die
I can hear the raor and rage
On my facebook page
from my back booth at Brody'sA chick's walking by she's had a nip and tuck
Got a tattoo on her ass and she says you wanna ...
I said yeahTrying to fight a war that we can't win
Trying to pass the blame
with a Glen Beck spinchorus
