

Upside Down

Dean Brody

I was hitch hiking walking neath the beating sun
No luck till that purple bus of love pulled up
They said Hey brah, looks like you could use a ride
Yeah we took us a vote and we think you should drive

Because we are feeling kind of loaded
Not sure just where this trip is going
But probly somewhere on the water torch in the sand
We just might never ever come back from this high upside down

So we ate Doritos and on we drove
The only hippy not token was a girl named flo
A groovy little smile she really lit me up
She said Iâ€™m lookin for truth but Iâ€™d be happy with love

up, up, up like two balloons
Itâ€™s so fun hangin with you
I just wanna stay right here- up in the clouds
this high upside down

We found a carnival out on a seaside pier
We shared a chilli dog with cheese and an ice cold beer
The smoke was wearin off we were losing the rush
Then she kissed me on the Ferris wheel and we went back upâ€™
