

Brighter Than Sunshine

Aqualung

I never understood before I never knew what love was for
My heart was broke, my head was sore what a feeling
Tied up in ancient history I didn't believe in destiny
I look up you're standing next to me what a feeling What a feeling in my soul love burns brighter than sunshine
Brighter than sunshine let the rain fall, I don't care
I'm yours and suddenly you're mine
Suddenly you're mine and it's brighter than sunshine I never saw it happening I'd given up and given in
I just couldn't take the hurt again what a feeling
I didn't have the strength to fight suddenly you seemed so right
Me and you what a feeling What a feeling in my soul love burns brighter than sunshine
It's brighter than sunshine let the rain fall, I don't care
I'm yours and suddenly you're mine, suddenly you're mine It's brighter than the sun
It's brighter than the sun
It's brighter than the sun, sun, shine Love will remain a mystery
But give me your hand and you will see
Your heart is keeping time with me What a feeling in my soul love burns brighter than sunshine
It's brighter than sunshine let the rain fall, I don't care
I'm yours and suddenly you're mine, suddenly you're mine I got a feeling in my soul love burns brighter than
sunshine
It's brighter than sunshine let the rain fall, I don't care
I'm yours and suddenly you're mine, suddenly you're mine I got a feeling in my soul love burns brighter than
sunshine
It's brighter than sunshine let the rain fall, I don't care
I'm yours and suddenly you're mine, suddenly you're mine
And it's brighter than sunshine
