I Brought Show Into Our House

Frank Powers

I was full of words but i was not writing
So full of words but not in for a talk
but the energy i did not get rid of
i went for a swim, i skipped the road

i would return thats what i held on to
iÂ´d do fine again i insisted you
i brought snow into our house
but now im blowin away the clouds

i would return thats what i held on to
iÂ´d do fine again i insisted you
i brought snow into our house
but now im blowin away the clouds

Instrumental

i just drank the water they gave me
i didnt waste a single drip
i wasnt questioning in the beginning
but now i sure do a bit

i would return thats what i held on to
iÂ´d do fine again i insisted you
i brought snow into our house
but now im blowin away the clouds

i would return thats what i held on to
iÂ´d do fine again i insisted you
i brought snow into our house
but now i push away the clouds

again i laugh a good sake
became a target of one of a kind
and as for now i am a will
that the dark house i have gone away
