

# I Brought Show Into Our House

Frank Powers

I was full of words but i was not writing  
So full of words but not in for a talk  
but the energy i did not get rid of  
i went for a swim, i skipped the road

i would return thats what i held on to  
iÂ´d do fine again i insisted you  
i brought snow into our house  
but now im blowin away the clouds

i would return thats what i held on to  
iÂ´d do fine again i insisted you  
i brought snow into our house  
but now im blowin away the clouds

Instrumental

i just drank the water they gave me  
i didnt waste a single drip  
i wasnt questioning in the beginning  
but now i sure do a bit

i would return thats what i held on to  
iÂ´d do fine again i insisted you  
i brought snow into our house  
but now im blowin away the clouds

i would return thats what i held on to  
iÂ´d do fine again i insisted you  
i brought snow into our house  
but now i push away the clouds

again i laugh a good sake  
became a target of one of a kind  
and as for now i am a will  
that the dark house i have gone away
