Hollywood

Maggie Rose

Small town, southern California
Pretty people but I gotta warn ya
They're country as it gets
Divorce everybody's cheatin'
Rehab everybody's drinkin'
Welcome to the Wild Wild WestThey call it Hollywood
It's not far from Dollywood
Just small towns with a different name
Dysfunctions, dysfunction
No matter what state you come from
It might as well be one and the same
If we said our lives through music
From here and now on
And everybody sang along
We'd sing a country song, oh, a country song
We'd be singing a country songTiny dogs and little bitty purses
Cosmos - everybody nurses
They get as trashed as we do, oh oh
Four kids, different baby daddy
Just hum, caught him with a fatty
That goes down in our town tooThey call it Hollywood
It's not far from Dollywood
Just small towns with a different name
Dysfunctions, dysfunction
No matter what state you come from
It might as well be one and the same
If we said our lives through music
From here and now on
And everybody sang along
We'd sing a country song, oh, a country song
We'd be singing a country songYeah, it's backwoods all the way to Hollywood
It's one big reality show
Oh yeah, it's back to the W-O-O-D-S
All the same, no matter how you dress
What you drive or who you know
We're all stars in this Springer show
There's silicone and breastaline
Blowing up and getting thin
That's what you get when you set foot inHollywood

It's not far from Dollywood
Just small towns with a different name
Dysfunctions, dysfunction
No matter what state you come from
It might as well be one and the same
If we said our lives through music
From here and now on
And everybody sang along
We'd sing a country song, oh, a country song
We'd be singing a country songIt's backwoods all the way to Hollywood
It's one big reality show
Oh yeah, it's back to the W-O-O-D-S
We're all the same, no matter how you dress
We'd sing a country song, oh, a country song
We'd be singing a country song
