

Forever Yours (High Without Background Vocals)

[Michael W. Smith](#)

I'm swept away in this moment
I feel your heartbeat next to mine
My hands are trembling
Its overwhelming
A whisper breaks through the silence
A vow to test the breath of time
Until forever ill be forever yours
Not just tonight I'm by your side
For all your life
Till death comes between us
And the heavens steal you away
I'll stay, yours forever
Don't you worry, don't be afraid
A heart can shift like a shadow
The deepest passion start to wake
Stay ever tender, never surrender
Come waltz with me through the twilight
And we will dance as seasons pass
We move together
I'll be forever yours
So hold me tight
Say you'll be mine, for all your life
Till death comes between us
And the heavens steal you away
I'll stay yours forever
Don't you worry, don't be afraid
Come what may
So what we have is this moment
But moments come and go so fast
Until forever, I'll be forever yours
There is no other, I am forever yours
