

# Hey Boy

## The DC Blossoms

[Theophilus London]Hey Boy Hey Hey Girl Hey  
Hey Boy Hey Hey Girl (x2)

[Rose Elinor Dougall]I've done some dirty deeds

But I've never done

A dirty deed to you

Years in the wilderness

'Til you found me

And gave me something true

Hey girl, you've lucked out

All the other girls they can only stare

That boy, he's so beautiful

Sleeping in the chair

People change but we're still here

We set sail without a destination

Weathered storms along the way

Face to face with temper

And temptation

Hey girl, you've lucked out

All the other girls they can only stare

That boy, he's so beautiful

Walking over here

I've found what heart is

It's being next to you

Without a single breath

Between us (between us)

I've found what heart is

It's being next to you

Without a single breath

Between us (between us)

[Theophilus London III]Let me tell you

About this girl called Rose

She just got the sensation

Said I'd be there around 3 o'clock

Inside your house I've been waiting

Her mother and brother, they greet me

They're wonderful

Your house looks nice

And your son does too

On his way to Sunday School  
Summers coming back on my mind  
Get the girl baby I'll stand in line  
You could bring your gifts  
I don't mind  
3 night, 2 days I'll be fine  
Get the bread, get the cheese,  
Get the wine  
Music blasting, a good time  
You and me, we're aligned  
What ya say, what ya say  
Hey girl hey

[Rose Elinor Dougall]Hey girl, you've lucked out  
All the other girls they can only stare  
That boy, he's so beautiful  
Sleeping in the chair  
I've found what heart is,  
It's being next to you  
Without a single breath  
Between us (between us)  
I've found what heart is,  
It's being next to you  
Without a single breath  
Between us (between us)  
Sleeping in the chair
