

# Love Live Life

## N-dubz

I love the lights, I love the life  
Live it to the fullest, no regrets, I'm proving  
They wanna know why I celebrate  
Tell 'em it's my birthday each and every day  
I wanna love, live life  
I wanna love, live life  
I wanna love, live life  
I wanna love, live life  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up  
I love the dream, I love the mix  
Beautiful people, all dressed up in labels  
Sipping the finest, eats are gourmet  
Glass in the air, now the round of champagne  
I wanna love, live life  
I wanna love, live life  
I wanna love, live life  
I wanna love, live life  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up  
It's a celebration, friends family look around me  
It's a celebration, the life that I live now never found me  
It's a celebration, see a couple paps tryna take pictures, 'low me  
It's a celebration  
One things getting low like she needs some attention  
But I didn't come to give any affection  
I told her back it up on my lower section

And man, I'm already onto my selection  
Anyone comes closer, bang connection  
It's a celebration, it's a celebration  
It's a celebration, gotta love, live life  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up  
You gotta love, live life, love, live life  
Love, live, love, live, love, live life  
Put your hands up in the sky, raise 'em up, raise 'em up  
Put your hands up in the sky, raise 'em up, raise 'em up
