

# The Cocktail Party (Group Home Demo 3/78)

## The Cure

Blood of Mary  
Fills my glass  
Spins crimson in the gloom  
Sipping on another cocktail  
Waking up in another room  
Gaze out on the river  
Of the gleaming city sky  
Sipping on another cocktail  
Watching the world go by  
Surge of twilight  
Blazing shadows  
Seeing things not there  
Television flickers  
On channel One  
And static cracks the air Come sunshine  
Come next time  
Come...  
Oh! Come along with me!  
I will show you life  
I will give you my eyes  
I will give you security...Yesterday was yesterday  
A nightmare of my past  
Sipping on another cocktail  
From the same glass Everyday was yesterday  
A nightmare of my past  
Sipping on another cocktail  
From the same glass...
