

Where Have You Gone

Barry Manilow

Where have you gone?
It's been so long
Winter's turned into spring And you're still not with me
So far away sweet yesterday
Love came 'round, but couldn't stay Where have you gone?
Do you still care?
Rainy April regrets All this pain and sorrow
Let me find some other kind
Some sweet love that's right this time Friends, dear hearts all around me
But deep in my soul I'm cold as stone
Once, true love found me, now I'm so alone Where have you gone?
Where are you now?
It's so hard to forget all those magic moments I still sing our song
Still holding on to love
Where have you gone?
