

Somebody

Jukebox the Ghost

I want it, I need it, I want somebody
I want it, I need it, I want your eyes to turn
I need it, I want it, I want somebody, baby
Now this is my turn I don't want any more doors
Cause I'm walking on the string
They only slam anymore
Like we're pulling out teeth
And I could just see her eyes
Just above his shoulder
And you were scanning the skies for me
I dreamt like you were some long-forgotten soldier
Like I was someone that you cared for I want it, I need it I want it, I need it, I want somebody
I want it, I need it, I want your eyes to turn
I need it, I want it, I want somebody, baby
Now this is my turn (Oooweeeeooohs) I don't want any more heartbreak
I'm tired of the sound it makes
Like trying to shut out the dark at night
You close your eyes but it won't erase
And you were walking beside
Some other person's shadow
And it was more than I could take
I wouldn't see what I couldn't know
That there might be somebody after me Ohhhh I want it I need it I want it, I need it, I want somebody
I want it, I need it, I want your eyes to turn
I need it, I want it, I want somebody, baby
Now this is my turn (Oooweeeeooohs) I don't want any more doors
Cause I'm walking on the string
They only slam anymore
Like we're pulling out teeth
And I could just see her eyes
Just above his shoulder
And you were scanning the skies for me
I dreamt like you were some long forgotten soldier
Like I was someone that you cared for I want it, I need it I want it, I need it, I want somebody
I want it, I need it, I want your eyes to turn
I need it, I want it, I want somebody, baby
Now this is my turn (Oooweeeeooohs) I need that new vacation
Where nothing that's spoken is known
Let the winter be my station

Ill let the cold teach me what to know
That there might be somebody after me Ohhh I want it (HUH), I need it (YOO)
I want it (OHH)
I want it, I need it I want it, I need it, I want somebody
I want it, I need it, I want your eyes to turn
I need it, I want it, I want somebody, baby
Now this is my turn (Oooweeeeooohs)
