

Rocket Trip to Mars

Fredrika Stahl

I'm far away I took a rocket trip to mars
I flew away 'cause life on earth was too harsh on me
When you were around, I found life moved along on a breeze
Then you went away and the air turned thick and hard to breathe

I'm far away I'm floating high above it all
I flew away 'cause from up here all seems so small, so plain
I walked on the moon but too soon I couldn't stand the view
I turned to the sun and the stars and the ocean down on you

And I know that I fooled around
I was wrong but I can't go back in time
And I know that you would do the same
Same rules for both parts of the game

We played with the cards, we broke our hearts
We played with the cards, we broke our hearts

I'm far away I took a rocket trip to mars
I flew away left all behind except some scars from you
Only high up here I can give my foggy minds some peace
But deep down I fear the day the dream of us will cease
And give my mind some peace

And I know that I fooled around
I was wrong but I can't go back in time
And I know that you would do the same
Same rules for both parts of the game

We played with the cards, we broke our hearts
We played with the cards, we broke

You left me alone in this world
You left me alone in this world

I flew away, I flew away far
Entre toi et moi c'est cassé
Plus rien n'ira

And I know that I fooled around

I was wrong but I can't go back in time
But I know that you would do the same
Same rules for both parts of the game

We played with the cards, we broke our hearts
We played with the cards, we broke

And I know that I fooled around
I was wrong but I can't go back in time
And I know that you would do the same
Same rules for both parts of the game

We played with the cards, we broke our hearts
We played with the cards, we broke
