Someone to Love

Eden Brent

If you want to love me let me know
Otherwise I'll pack my bags and go
I have tried, Lord I've tried to make you mine
If you can't commit then I will understand
I will find myself another man
All I want, all I need is just someone to love
You know you are the first one on my list
But you are swimming school of fish
I won't cry, I won't cry if I am denied
I'm giving you the first right to refuse
I will find a man that I can use
All I want, all I need is just someone to love
Someone to love me every morning
Someone to love me through the day and the night
Someone to kiss me and to thrill me
Someone to squeeze me, Baby hold me tight
I have tried to make you mine
But I can damn sure find another guy
All I want, all I need is just someone to love
I ain't never told you what to do
You've done everything you wanted to
It's a crime, Lord it's a crime
For me to change your mind
If you want me Baby take my hand
I'll be your woman you can be my man
All I want, all I need is just someone to love
