

# For My Friends

## Blind Melon

I remember we used to sit out back and drink until the morning light  
Always bummin' smokes and talking trash about the pleasure we had  
Summers come and gone  
And the winter needs a song  
And I guess I keep movin' along with the ride that I have in my head  
Ride that I have in my head Oh we used to drop some pills and sing til we lose our voice  
Chasing our dreams, we tried to put em' in a bag and save em' for another day yeah  
Oh I feel, these memories have real  
Times you can't steal  
For the love that I have for my friends  
Love that I have for my friends I just can pretend I need you  
You aint' no other love I never had  
Soon you will find my heart  
Its a beat that will never stop  
Its the loneliest time apart Love that I have for my friends  
Love that I have for my friends  
Love that I have for my friends  
Love that I have for my friends
