A Glorious Day

Emma Pollock

Who could send something so pure to lure me away
I fought with the last of my breathBut you came along on a glorious day
By the time that you left I was crawling again
Yeah, you came along on a glorious day
Now I want you to save me againThe fire that they said would burn just lights up the way
I lie in the place where I fell
And three years on, this nine day wonder won't go away
'Til you bring an end to my hellBut you came along on a glorious day
By the time that you left I was crawling again
Yeah, you came along on a glorious day
Now I want you to save me againLet them all keep their plans
'Cause all I want is in my hands and I cant look down
Back then I had it all and now I want it back that's all
And I can't get outYou came along, on a glorious day
By the time that you left I was crawling again
Yeah, you came along on a glorious day
Now I want you to save me again
Now I want you to save me again
Now I want you to save me again
