

Opaque

Feeder

It makes no difference when it's fun
Senses shot away who gives a damn who I am?
I'm opaque, left to stand out in the crowd
Insecurities come flooding in, the hooks are in
But I'm okay Don't you see, we're in skin deep
Cut me free again and watch me bleed Turning frequencies inside
Find the perfect place to be alive, finalize, I'm opaque
Substitute the way you feel
Open up your mind, run different modes
Break color codes on my way Don't you see, we're in skin deep
Cut me free again and watch me
Don't you see, we're in skin deep
Cut me free again and watch me bleed Drawing circles on a twisted mouth
That frowns again today
We're finding pleasure in a life so short, but that's okay Lift the world right out from me
Break the cable, find the ever glow
You never know, I'm opaque Don't you see, we're in skin deep?
Cut me free again and watch me
Don't you see, we're in skin deep?
Cut me free again and watch me bleed Don't you see, we're in skin deep?
Cut me free again and watch me bleed
