

Love Song

Jamillions

Woahh.. Woahh
Woahh.. Ohh yehh
Woahh..its just like another story, you came
and took the glory
Made me half the man i am, and just like the one before me
living so losted and lonely you came and took
my breath awayCan you say, that we would always
be together
No matter what the weather..
forever and ever
Can you say, that we would live
to see forever, that we would live in perfect
harmony.. soCan i write you a love song? So, i can sing along
Sing it like, do do dope do do dope do do dope
the melody would change and take your soul
it will go, something like do do dope do do dope
do do dope do do dopeits just like another movie when you came up
and walked up to me
it showed me love in every way.. ohh yeahh
and just like in every story with so much
pain unfolding, until you came and saved the dayCan you say, that we would always
be together
No matter what the weather..
forever and ever
Can you say, that we would live
to see forever, that we would live in perfect
harmony.. soCan i write you a love song? So, i can sing along
Sing it like, do do dope do do dope
do do dope do do dope
the melody would change and take your soul
it will go, something like do do dope do do dope
do do dope do do dopei guess im falling in love again, here with you
i put my heart on the line cause its what i do
just to see the truth, and to be with you
don't matter how far we grow, ill never let you goCan i write you a love song? So, i can sing along
Sing it like, do do dope do do dope
do do dope do do dope
the melody would change and take your soul
it will go, something like do do dope do do dope

do do dope do do dope Can i write you a love song? So, i can sing along
Sing it like..
the melody would change and ta
