

# Praying

Tom Grennan

I've walked through hell, and I've battled the storms  
I know too well how, it feels when you fall I'm on this road, and I won't lose my faith  
Pack it up, pack it up, 'cause I'm on my way  
For so long...I've been praying, for a brighter day  
I've been praying, trying to find my way  
Cause time moves on and seasons change  
Nothing ever stays the same  
Praying, I keep praying.  
I've over due, just a little bit of luck,  
I get the taste, but it's never enough  
I'm on this road  
And I won't lose my faith,  
Pack it up, pack it up cause I'm on my way  
For so long...I've been praying for a brighter day  
I've been praying trying to find my way  
Time moves on and seasons change,  
Nothing ever stays the same  
Praying, I keep praying. On my own, I search high and low  
Till I find what I've been praying for  
I'm in my deep end and I won't be beaten till I find what I've been looking for...  
I've been praying, for a brighter day  
I've been praying, trying to find my way  
Cause time moves on and seasons change  
Nothing ever stays the same  
Praying, I keep praying.
