Under The Influence

Kylie Minogue

Written: paul politi and barry whiteFloating on a cloud
Feeling high
It happens every time
Whenever I'm with my guy
Tripping on love
And it feels so good
I can't help myself
And I wouldn't if I could
`cause he's got that certain touch
That I'm addicted to
Love's really got a hold on me
And there's nothing I can doOh i'm, I'm under the influence of love
And I know there's no doubt about it
I'm under the influence of love
And I know I can't live without itMoving over close
Can't get enough
I've just got to have all of my baby's love
And when I'm alone
Feeling sad and blue
He gives me a shot of love
And I'm as good as new
Helpless as I am
As if I don't care
His tenderness is what I miss
Whenever he's not hereOh i'm, I'm under the influence of love
And I know there's no doubt about it
I'm under the influence of love
And I know I can't live without itThere just ain't no one else
Who can bring out the love in me
So many guys have tried
They tried to capture my eye
But he's the only one I seeOh, I'm i'm under the influence of love
And I know there's no doubt about it
I'm under the influence of love
And I know I can't live without it(repeat to fade)
