# Welcome

## Heather Nova

I see you standing in the doorway
A shadow in the sun
I'm reaching out to touch youIs it better when you know
That you're not the only one
That I can hear youAnd there's so much I can do for you
Given time, I know that I can prove
Now my world is offered up to you, let it flyAnd I say
Welcome to my life
Welcome to my world
Welcome, come inside
Wel, welI see you picking up the pieces
The pieces of a dream
You tried to build around youI know you're looking for a reason
A reason to believe
Now I've found youAnd there's so much I can do for you
Given time, I know that I can prove
Now my world is offered up to you, come insideAnd I say
Welcome to my life
Welcome to my world
Welcome, come inside
Wel, welAnd there's so much I can do for you
Given time, I know that I can prove
Now my world is offered up to you, come insideAnd I say
Welcome to my life
Welcome to my world
Welcome, come inside
Wel, welWelcome to my life
Welcome to my world
Welcome, come inside
Wel, welWelcome to my life
Welcome to my world
Welcome, come inside
Wel, welWelcome to my life
Welcome to my world
Welcome, come inside
Wel, wel
