Nasim Joon

Oar

Caught a train in a dash
Running hard from my past
Set to ride this here rail till the end
Along the way met a queen
Now, I'm her king
And we reign our kingdom from a mountaintop
Where, baby, we can be alone
Almond eyes, royal skin

This one could do me in
An I'll live this here life till the end
We will win, we will win, we're gonna win this here race
Baby, we can be alone
My baby, we can be alone
Some day I'll give it all back
The time you gave
Now, baby, we can be alone
