

# Hometime

## One Eskimo

Picture me in a boat on the sea, five fingered leaves keep covering me  
Don't you know that the big Ferris wheel is eventually stalling? I see you, I see the animals too, especially those  
that are out at the zoo  
They look just like me and a lot like everybody  
And if we're lucky we might see the end of the day completely  
Collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
People walking on top of the sea but this time it doesn't  
matter to me  
'Cause I've got these magical seeds and the trees are still growing  
Stone throwing, I've got nothing to do, only  
hope I got the message to you  
'Cause if we're lucky we might see the end of the world completely  
And if we do then I hope that it's you waiting there to meet me  
Collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
Collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime  
Come on, collect all your things 'cause it's hometime
