

# Flying Solo

## Elenowen

I see the trees waving their raised hands  
Praising the one who planted them there  
I wish I could see from high up in the air  
But I'm stuck here on the ground  
With my wounds holding me down Hold on spirit, hold on soul  
Hold on little heart, let's fly solo  
Take it easy or take it slow  
Doesn't even matter which way we go  
Hold on little heart, let's fly solo So I sewed on a pair of homemade wings  
I stood on the shoulders of my father to see  
Next thing I knew I lost feeling in my feet  
Surrounded by the clouds  
I left my wounds on the ground Hold on spirit, hold on soul  
Hold on little heart, let's fly solo  
Take it easy or take it slow  
ke it slow  
Doesn't even matter which way we go  
Hold on little heart, let's fly solo Ooo... Hold on spirit, hold on soul  
Hold on little heart, let's fly solo  
Take it easy or take it slow  
Doesn't even matter which way we go  
Hold on little heart, let's fly solo
