

Saved By A Bell

Mike Oldfield

Won't you like to look through my telescope
The milky way's a fine sight to see
 All around our universe
 We try so hard to view
 What's new
 Make a trip down to Sagittarius
 And take a spin by some nebula
 I hope the sky stays clear for us
 Tonight goes on so far
 In stars
 Saved by a bell
 Suffer in hell
 But you were too blind to tell
 Saved by a bell
 Suffer in hell
 And you made it through so well
 Shining like bright diamonds the galaxies
 Jupiter and Saturn spin by
 Passing by companions
 They all go drifting by, they fly
 Carry me down to see Aquarius
 We're hoping to meet a shooting star
 I can see there's gonna be
 A message from afar
 How close we are

 Saved by a bell
 Suffer in hell
 But you were too blind to tell
 Saved by a bell
 Suffer in hell
 And you made it through so well
 Saved by a bell
 Suffer in hell
 But you were too blind to tell
 Saved by a bell
 Suffer in hell
 And you made it through so well
 Saved by a bell

Suffer in hell
But you were too blind to tell
Saved by a bell
Suffer in hell
And you made it through so well
Saved by a bell
Suffer in hell
But you were too blind to tell
